SUMMARY

Highly driven Front-End developer with experience in developing responsive websites and web applications. Striving to build beautiful UI/UX and passionate about learning new web technologies to tackle the unknown.

SKILLS

Languages, Frameworks, & Libraries: HTML5, CSS3/SCSS, JavaScript(ES6), React, Next.js, Bootstrap, Tailwind CSS, Axios, jQuery, Express

Tools, Technologies, & UI Design: Git, Github, VS Code, API, PostgreSQL, Netlify, NPM, Storybook, JEST, Mocha, Chai, Figma, Jira

PROJECTS

Pokedex
· Pokedex is a fully responsive single-page app that allows users to search for pokemons in the entire pokemon directory. Users can filter their search by type and view a specific pokemon's details.
· Built using Next.js, Axios, PokeAPI and Tailwind CSS

Snazzy Snacks
Lighthouse Labs
· A full-stack React app that offers monthly subscriptions of randomized snack selections based on three tiers. This project was built in a team environment for the final project at Lighthouse Labs.
· Built with React, React-Router-Dom, Axios, SweetAlert2, SCSS, Node.js, Express, PostgreSQL, Stripe, Bcrypt and Figma

Interview Scheduler
Lighthouse Labs
· Interview Scheduler is a single-page app that allows users to book interviews. It makes requests to an API with Axios to fetch and store appointment data from a database.
· Built with React.js, Axios, SCSS and tested using Storybook, Jest, and Cypress

Resource Wall
Lighthouse Labs
· A full-stack app built in a team environment for the Lighthouse Labs midterm project. This app allow learners to save learning resources like tutorials, blogs and videos in a central place that is publicly available to any user.
· Built with HTML, SCSS, Javascript, jQuery, Bootstrap, Express, and Figma

York University · Toronto, Ontario · 2020

Bilingual BA , Psychology
York University | Glendon Campus · Toronto, Ontario · 2019 · 3.8 GPA, First-Class with honorable mention

EXPERIENCE

Junior Developer
B12GIVE   June 2023 - Present, Toronto
· Lead the redesign project of the company website using Figma, enhancing its visual appeal and user experience
· Collaborate with CEO and Lead Developer to gather requirements and create wireframes for the website redesign
· Translate mockup from Figma into responsive code while adhering to best practices for accessibility, UX, SEO, and performance along with following functional specs
· Write clean, efficient, and maintainable code to implement the redesigned website using industry-standard languages and frameworks
· Assist in the maintenance and enhancement of existing website features, ensuring their compatibility with the redesigned sections
· Stay updated with the latest web development trends and technologies, continuously improving coding practices and implementing best practices, poised to contribute to the company's forthcoming mobile app ventures

Coordinator, General Inquiries | Talent, Central Business Services
Deloitte   November 2021 - July 2022, Montreal, Quebec
· Complete administrative tasks for employee lifecycle events including, but not limited to, benefits, hiring, compensation, and departures
· Deliver end-to-end operational experiences through defined processes that are standard for all business segments
· Participate in confidential integration projects to ensure a flawless onboarding experience for the acquired company and its employees
· Respond to queries, offer support and advice on various HR topics in line with Deloitte's processes and policies in a fast-paced environment while providing professional and positive client interactions with employees and Partners

Associate Talent Acquisition Partner - Technology
SSENSE   August 2020 - November 2021, Montreal, Quebec

· Master applicant tracking system, scheduling tools, and organizational products including SmartRecruiters, Google Workspace, and Trello
· Schedule interviews and debriefs for software developer candidates of all levels in a timely and efficient manner
· Build strong partnerships with recruiters, hiring managers, developers, and candidates to provide an outstanding candidate experience throughout the interview and hiring process
· Perform other administrative tasks as needed (sourcing, phone screening, attending recruitment events, drafting offer letters, initiating reference checks and background checks)

CERTIFICATIONS

Web Development
Lighthouse Labs · 2023
· Demonstrate proficiency in building scalable, user-friendly web applications and digital solutions through over 1000+ hours of coding in both front-end and back-end technologies

Basics, Plus, Responsive, React
SheCodes · 2022
· Establish the fundamentals of HTML, CSS, Bootstrap, JavaScript, and React through four workshops (Basics, Plus, Responsive, and React)
